## **Analysis of Teachers feedback**

### **REPORT**

**Session, 2019-20**

**The data received from the respondents, who are in this case the Teachers, show that in most of the cases the percentage of rating for excellent is more. Except for few areas the teachers have more or less rated on a positive note.**

**A very positive rating is visible in areas like leadership quality of the Head of the Institution, Inter-personal relationship with the Head of the Institution and inter-personal relationship among the co-workers.**

**It is also seen that around 0.5% of respondents rated poor in the areas like Welfare facilities provided by the administration, basic amenities provided to the staff and in other few areas.**

**However this may be overlooked considering the small percentage of rating.**

**The overall feedback shows that the respondents have given a positive rating. Few areas still need to be improved.**
