Students Feedback Analysis

REPORT:

The feedback received from the 3rd year students of the academic session: 2017-18 reflects a ppositive growth and development in the overall system of College and its management. A very few number of respondents, however, are not satisfied with certain aspects and hence they rated it as being poor. Looking broadly, the feedback seems satisfactory for the mentioned session.

The areas like Coverage of Honours and General syllabus in class, Academic content, Usefulness of Teaching materials have been rated as being good by most of the students and approximately 30% of the students find these areas to be excellent. The Evaluation Process and Fairness of evaluation is out of the purview of the college administration but the students are content with the evaluation and marking system of the University.

Most of the students rated their interaction with the Office, Teachers and Principal as being good and nearly 40% rated it as being excellent. Despite many students rating the Library facilities, Recreational facilities, Extra – curricular facilities and Sports facilities as being excellent, good and satisfactory there were a small number who rated it as being poor.

Most of the areas like Communication skills of the teachers, Internal Assessment, Student-Teacher relationship and activities of the Students' Union have been rated as being good. More than half of the students rated the existing infrastructure as good and 31% rated it as excellent.

The analysis reveals that there are a few areas, which have already been mentioned above, which needs to be monitored and acted upon at the earliest. Nevertheless, the data received is satisfactory for the session.
