Observation

Library Orientation Program is very essential for library users. It enables library users - to use library resources and services independently and efficiently for the purpose of their study and thereby transforming them to be lifelong learners. Users will acquire clear cut ideas about do's and don'ts of that library system. So we hope that this orientation will help the students to fulfill their academic purposes and they would further use library's resources for over all development. We hope that "**Best Library User Award**" would encourage many new Library users.
